Cloud Infrastructure Engineer with hands-on experience managing GCP, Proxmox, and multi-cloud environments (AWS, Alibaba Cloud). Skilled in application and database migration to Kubernetes, Cloud SQL, and other GCP services, as well as infrastructure optimization that helped reduce costs and improve reliability. Familiar with Terraform automation, OWASP Top 10 security best practices, and building monitoring solutions using Prometheus & Grafana. Currently expanding skills in DevOps practices, including CI/CD pipelines, container orchestration, and secure infrastructure management.

Experience

PT. Ebconnect Indonesia, Jakarta — EOS Cloud Engineer (Assigned to Pertamina Bina Medika IHC)

JUL 2025 - PRESENT

- Conducted a complete audit and documentation of 100% of cloud infrastructure in the first month, creating a baseline for optimization and troubleshooting.
- Migrated applications from bare metal to GKE, Cloud SQL, and Filestore, improving scalability & disaster recovery readiness.
- Optimized provisioning by updating Terraform scripts, improving deployment consistency and speed.

PT. Magpie Data Indonesia, Remote — Cloud Infrastructure Engineer

FEB 2023 - JUN 2025

- Migrated Apache Airflow to GKE, boosting deployment speed 40% and cutting downtime to under 15 minutes.
- Reduced infrastructure costs by 60% with GCP preemptible VMs & Kubernetes optimization; Managed 50+ Proxmox VMs using Ansible.
- Implemented OWASP Top 10 practices, introduced Passbolt for secure team credential management, and deployed ZeroTier for a secure internal network.
- Built proactive monitoring (Prometheus, Grafana) lowering incident recovery time ~35%.

Yayasan Anak Bangsa Bisa, Remote — Data Analyst Trainee

FEB 2022 - JULI 2022

- Developed an interactive Google Data Studio dashboard for global heart disease analysis using Python & SQL.
- Delivered 100% of projects on time in a team of five, producing actionable insights for a national health program.

Education and Certifications

- | | |
|--|-----------|
| • B.Sc, Physics , Diponegoro University | 2018-2022 |
| • Associate Cloud Engineer Certification , Google Cloud – Credential | 2024 |
| • Alibaba Cloud Certified Associate , Alibaba Cloud – Credential | 2024 |
| • AWS Cloud Practitioner Essentials , Dicoding Indonesia – Credential | 2025 |

Skills

- Cloud & Infrastructure: GCP, AWS, Alibaba Cloud, Proxmox, VM VirtualBox
- Infrastructure as Code: Terraform, Ansible
- Containers & Orchestration: Docker, Kubernetes
- Monitoring & Observability: Prometheus, Grafana, Loki, Alertmanager
- CI/CD & Version Control: GitHub Actions, Jenkins, Git, ArgoCD
- Programming Languages: Python, SQL, Bash
- Operating Systems: Windows, Mac, Linux (server configuration, cronjob, scripting)
